NordPass®

Top 200 most common passwords of the year 2020

Here are the worst 200 passwords of 2020. The list details how many times a password has been exposed, used, and how much time it would take to crack it. We also compare the worst passwords of 2019 and 2020, highlighting how their positions have changed. The green arrows indicate a rise in the position while the red ones - a fall off. Check if your password is on the list and strengthen it if it is.

Position	Password	Time to crack it	Number of users
